Medical Cosmetics

Personalised to Perfection

Meaningful • Measurable • Modern • Medical Cosmetics

A Journey of Excellence in Medical Cosmetics : Celebrating a Decade of Innovation with Lazhora

The International Year of Crystallography (2014) ignited a spark that inspired the creation of Lazhora Medical Cosmetics, a **dynamic division of dermaindia**. Driven by the ever-growing demand for medical cosmetics, we embarked on a mission to innovate and excel. To achieve this, we established a state-of-the-art in-house laboratory equipped with advanced diagnostic equipment and led by a team of highly qualified scientists.

Recognizing the evolving trends in cosmetology, we continuously enhance our offerings. Leveraging cutting-edge research and development, we have upgraded our formulations by incorporating advanced ingredients that improve efficacy, deliver faster results, and provide greater benefits for your patients - all while maintaining the highest safety standards.

At Lazhora, we stand out through our commitment to personalized care and custom formulations. We source premium raw materials from trusted manufacturers and ensure strict quality control at every stage, from formulation to packaging. Specializing in advanced cosmetics contract manufacturing, we cater to global brands with tailored products like serums, creams, and gels. Backed by research and an expert R&D team, we prioritize innovation, quality, and aesthetics in everything we create. Our services also include designing and labelling products to align with market trends, as well as developing custom formulas for unique offerings. Discover our streamlined step-by-step cosmetics contract manufacturing process.

As **we celebrate 12 years with Your Confidence & Our Commitment**, we express our heartfelt gratitude to our esteemed dermatologist and medical professionals. Your unwavering trust and encouragement have fueled our growth and success. Together, we've built a legacy of passion, precision, and excellence in medical cosmetics. Thank you for being an integral part of the Lazhora family. Here's to continued innovation and exceptional care.

Thank you Doctors for your backing and warmth. Together, Let's Keep this going on and on.

WELCOME TO
TEAM LAZHORA
And Enjoy Our Personalized Preparation

A chemical peel is a technique used to improve and smoothen the texture of the skin and scarring can be improved. Chemical peels are intended to remove the outermost layers of the skin. To accomplish this task, the chosen peel solution induces a controlled injury to the skin. Resulting wound healing processes begin to regenerate new tissues. The dead skin eventually peels off resulting in wound healing processes and begins to regenerate new tissues.

ZHORA GLYCO PEEL

ENCAPSULATED LIPOSOMES PDRN
STEMCELLS MICROSPONGE EXOSOMES
LIPOSOMES STEMCELLS ENCAPSULATED PDRN

ZHORA MESO SERUMS

Zhora serums use multiple advanced delivery technologies to ensure better stability, deeper penetration, and superior skin and hair tolerability.

ENCAPSULATION

Encapsulation protects active ingredients inside a microscopic carrier. This helps keep the actives stable, reduces irritation, and allows them to be released slowly and effectively into the skin or scalp.

STEM CELLS

Plant-derived **stem cell** extracts support skin and scalp renewal by protecting and stimulating the skin's natural regenerative processes, while maintaining stability and performance

LIPOSOMES

Liposomes are lipid-based carriers similar to skin cell membranes. They help transport active ingredients deeper into the skin or scalp, improving absorption while reducing surface irritation.

EXOSOMES

Exosomes - inspired biomimetic vesicles help improve cell-to-cell communication and support skin repair

PDRN

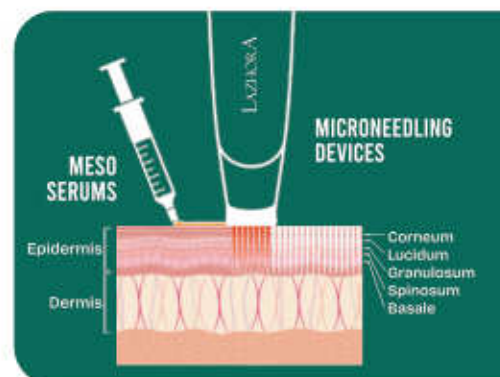

PDRN activates natural tissue repair mechanisms to restore damaged and aging skin. It enhances skin vitality, firmness, and post-procedure recovery.

MICROSPONGE

Microsponge technology uses porous micro-particles that slowly release actives over time. This controlled delivery minimizes irritation and provides longer-lasting, consistent results.

ZHORA SPLASH

ULTRA MOIST SOLARIZE

Combines hydration with sun protection in one product. Simplifies skincare routine by eliminating the need for a separate moisturizer. Lightweight or rich formulas available for different skin types.

BEST FOR

- Dry skin or those wanting an easy, daily-use product.
- People staying indoors or with minimal sun exposure.

ACTIVE INGREDIENTS

Ethylhexyl methoxycinnamate, Sodium Hyaluronate, Niacinamide, Squalene, Butyrospermum parkii butter, Glycyrrhiza Glabra root extract

Lazho Jet

MESO INJECT THERAPY

REVITALIZE & REJUVENATE SKIN | CUSTOM SKINCARE | DUAL LIGHT EFFECT CARE

LazhoJet – Advanced Microneedling Solution

The LazhoJet is a next-generation microneedling device engineered for precision, performance, and patient comfort. It integrates intelligent serum delivery, automated needle control, and LED therapy to deliver consistent, professional results for all skin types.

Upgraded Dual Cartridge System

A smart detachable cartridge with built-in serum container ensures controlled, uniform serum delivery with 3 adjustable flow levels, preventing backflow and product wastage.

Automated Needle Depth Control

One-touch adjustment from 0–2.0 mm allows precise, real-time customization for different skin concerns and treatment areas.

Integrated Red & Blue LED Therapy

Red LED (630 nm) boosts collagen and healing, while Blue LED (470 nm) calms skin and reduces redness, enhancing post-treatment recovery.

Full-Color LED Display

Real-time display of speed, needle depth, serum flow, and battery status for complete control during procedures.

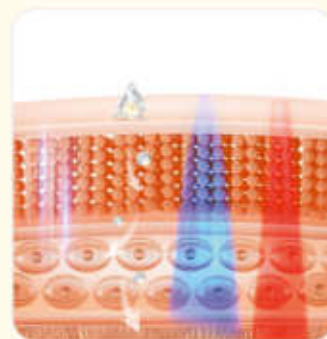

Versatile & Professional

Compatible with 18-pin, 36-pin, 42-pin, Round Nano, and Square Nano cartridges, featuring 6 speed levels, ergonomic design, wired/wireless use, and 4–5 hours battery life. Safe, non-invasive, and ideal for professional aesthetic practice.

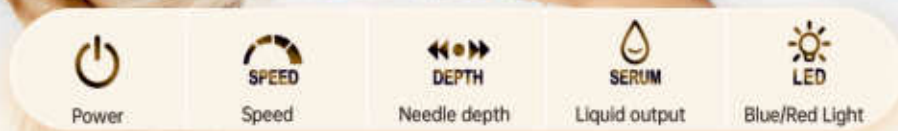

DUAL EFFECT NEEDLE

Double Effect combination of micro needle & Meso serum, Skincare in one step

Chill & Cool

Sheet masks are one of the quickest and easiest ways to give your skin an instant glow. Infused with serum, they provide multiple benefits depending on the type of mask used. Sheet masks contain a higher concentration of hydrating ingredients compared to other skincare products. The fabric molds to your face, locking in the ingredients and preventing them from evaporating, ensuring maximum absorption and effectiveness.
